PROJECTS

Well ♥ Me | <https://github.com/blakestickland/project2> |
<https://lkblt-project2.herokuapp.com/>

- An easy web-based way to track and reach fitness goals faster. Follows MVC design pattern; uses Sequelize as an ORM to query and route data in the app and Handlebars to generate the HTML.
- Co-developer in a group of five.
- JavaScript, Node.js, npm libraries, APIs, HTML, CSS, Heroku, Sequelize, passport, Foundation by Zurb, Handlebars,
- Chart displaying daily log data from the most recent week; recipe cards produced based on diet requirements.

Hangry? | <https://github.com/LindaHlubi/Project-1> |
<https://lindahlubi.github.io/Project-1/index.html>

- A recipe search engine that displays recipe cards featuring recipe picture, ingredients, wine-pairing suggestion and cooking instructions; email and add-to-favorites options based on user-entered food keywords.
- Co-developer in a group of four.
- JavaScript, AJAX, APIs, HTML, CSS
- Built keyword-search; AJAX API calls for wine-pairing and cooking instructions; assisted with HTML and styling.

EXPERIENCE

Venue Technical Support University of Melbourne

**2019-Present
Melbourne, VIC**

Provide technical solutions to students and stakeholders for production and event goals.

Key Accomplishments:

- Problem-solve student installations and guide students to achieve efficient, result-conscious solutions.
- Collaborated closely with students and all stakeholders successfully while remaining adaptable to evolving artistic outcomes.

Technician Melbourne Recital Centre

**2014-Present
Melbourne, VIC**

Engineer sound for concerts, recording sessions and livestreams in multiple spaces.

Key Accomplishments:

- Operate and co-ordinate sound reinforced events in the 1000-seat capacity multi-performance venue as part of a team staging more than 550 events per year..
- Contribute daily to achieving time and budget-related goals for both venue and client which enabled the Centre to grow it's brand domestically and internationally, fostering strong relationships with touring artists and promoters.

AV Technician Federation Square (for AV contractor Creative Vision Audio)

**2009-Present
Melbourne, VIC**

Contribute to the AV team through provision of sound for predominantly live events across the Federation Square site.

Key Accomplishments:

- Recognized by managers for professionalism in commitment to clients when dealing with unexpected circumstances.
- Consistently requested by management to operate high-profile events that demand attention to detail and an achievable approach to the job.
